

2026 Offer

Team Name – Dino Nuggies
Team Mentor – Stacey-lee Vesey

Dear Dino Nuggies,

On behalf of RoboCup Junior Australia, I would like to firstly congratulate you on your performance at the 2025 Australian National Competition that recently took place in Canberra, Australian Capital Territory. There were a number of outstanding teams at the competition this year, and your high achievement in Onstage is a testament to your hard work and dedication to the challenge. Well done!

As well as being the culmination of months of work and an excellent opportunity to collaborate with and compete against students from across Australia, the National Competition also serves as our selection event for Team Australia and the next International RoboCup Competition.

The 2026 International Competition will be held from June 30 to July 6 in Incheon, South Korea. This year, we are offering both primary and reserve positions to successful teams to help ensure Team Australia is ready to represent Australia in as many divisions as possible.

Primary positions are offered to teams who placed 1st at the National Competition and will be given the first opportunity to represent Australia. Reserve positions are offered to 2nd place teams in each division, with reserve teams available to take part should a primary team not be able to attend or an additional slot becomes available.

It is my pleasure to offer you a **primary position** in Australia's RoboCup Team for 2025. We would be delighted to have you represent Australia in **Onstage**. Written acceptance of this offer is required by no later than **Friday, January 30th 2026**.

In accepting this offer, please ensure that you have full support from your school and education system, as well as students and families. Do not accept a position if you are not confident you will be able to make the event, as late changes can make it very hard for reserve teams to take up a position.

If you have any questions or concerns, please do not hesitate to contact me.

Warm regards,
